APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of Lake Tahoe as heretofore granted under Permit 18556 is issued subject to the terms and conditions imposed in said Permit 18556 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The State reserves the right to regulate the use of the water under this proposed change at any and all times.

With the issuance of this Permit, the total annual duty allowed under Permits 18556, 22786, and 23486 is reduced by 8.030 million gallons annually to 18.275 million gallons annually.

6.935 million gallons annually of the water allowed by the issuance of this permit is limited to use on those parcels of record in the Douglas County Recorder's office described on Exhibit A, attached hereto.

1.095 million gallons annually of the water allowed by the issuance of this permit is limited to use on "The John Thompson Lot" shown on Round Hill Exhibit A entered into evidence at the hearing on the instant matter, December 7, 1982.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0588 cubic feet per second, but not to exceed 8.030 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before June 30, 1983

Proof of completion of work shall be filed before July 30, 1983

Application of water to beneficial use shall be made on or before June 30, 1985

Proof of the application of water to beneficial use shall be filed on or before July 30, 1985

Map in support of proof of beneficial use shall be filed on or before July 30, 1985
